Promocube®

The unique all-rounder

No matter if promotion, roadshow,
event-module, mobile tv-studio,
exhibition, fanshop, bar or bus-
stop – there is (nearly) nothing the
Promocube® cannot provide.
Design and furnishing are individually
personalized to fit your needs.
All from a single source!

Promocube®

Simply ingenious

Thanks to integrated hydraulics and trailer with slewing ring the Promocube® can be positioned quickly and easily.

Additional machines such as cranes or fork-lifts are not required. Build-up can be managed by a 2-headed promotion-team within 45 minutes.

Promocube®

Your brand on wheels

For transportation you need a towing vehicle providing 3.5 t towing capacity and 150 kg permitted drawbar load. The transport trailer has a height-adjustable draw gear (ball head coupling / hitch ring). Therefore transportation is possible using a truck or a transporter (e.g. "Sprinter").

Promocube® Basic features

All Promocube® basic-modules already feature the following equipment attributes:

- Trailer with slewing ring
- Integrated hydraulics
- Height-adjustable drawing gear
- Build up training at plant
- Insurance (for rental modules)
- Storage room 1.7 m²
- Roof teaser for long-distance impact
- Solid, slip-resistant floor (aluminium chequer plate)
- Basic illumination with LED-downlights
- 5.1 Soundsystem

Promocube® since 2008

On the move together with major brands

Contact

The Promocube® provides nearly unlimited possibilities. Talk to our team. We will be pleased to show you how the Promocube® can be adapted to your requirements and operation purposes.
